We promote sustainable innovation through three strategic action lines:

- Connecting everyone so that people can have access to communication and the digital world
  - Connected society
  - Universal design
  - Service affordability

- Protecting the planet in order to face environmental challenges
  - Climate action
  - Biodiversity and natural resources
  - Circular Economy

- Developing sustainable societies responding to social and economical challenges
  - Sustainable cities
  - Emergencies
  - Governments & Institutions

* United Nations Sustainable Development Goals (SDGs)
