

## **Regional programs**

---

Telefónica continued to play an active role in the EC programs promoted by FEDER aimed at correcting imbalances between the regions. The STAR and TELEMATICA programs were of particular significance.

We continued to take part in the regional development and restructuring programs in operation in the Canary Islands, Castille-La Mancha, Castille and León, Catalonia, Valencia, Extremadura, Galicia, Madrid, Murcia and the cities of Ceuta and Melilla, as well as the Regis program (Canary Islands). Participation also continued in the "Objectives 5B" operating programs for the Autonomous Regions of Aragon, the Balearic Islands, Cantabria, Catalonia, Madrid, Navarre, the Basque Country and Rioja.

Cellular access rural telephony has helped to correct regional imbalances
