## **ENVIRONMENTAL POLICY**

January 2019

We set ambitious

We advance towards decarbonisation. decoupling our growth from carbon emissions

We comply with legislation, other regulations and contractual

**obligations** that go beyond compliance

environmental **goals** to ensure our continuous improvement

that address some of our planet's biggest environmental challenges

We drive digitalisation with other organisations to maximise our positive impact on the environment

We deploy and

protecting the

environment

operate our network

Our environmental management **system** help us to be more efficient while managing risks and opportunities

We empower our employees and **customers** to make a real difference

We work with our partners to make a difference for our planet

We commit to **communicate** our performance with our stakeholders
