Disclaimer

This document contains statements that constitute forward looking statements in its general meaning and within the meaning of the Private Securities Litigation Reform Act of 1995. These statements appear in a number of places in this document and include statements regarding the intent, belief or current expectations of the customer base, estimates regarding future growth in the different business lines and the global business, market share, financial results and other aspects of the activity and situation relating to the Company. The forward-looking statements in this document can be identified, in some instances, by the use of words such as "expects", "anticipates", "intends", "believes", and similar language or the negative thereof or by forward-looking nature of discussions of strategy, plans or intentions.

Such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and other important factors that could cause actual developments or results to differ materially from those expressed in our forward looking statements.

Analysts and investors are cautioned not to place undue reliance on those forward looking statements which speak only as of the date of this presentation. Telefónica undertakes no obligation to release publicly the results of any revisions to these forward looking statements which may be made to reflect events and circumstances after the date of this presentation, including, without limitation, changes in Telefónica’s business or acquisition strategy or to reflect the occurrence of unanticipated events. Analysts and investors are encouraged to consult the Company’s Annual Report as well as periodic filings filed with the relevant Securities Markets Regulators, and in particular with the Spanish Market Regulator.

The financial information contained in this document has been prepared under International Financial Reporting Standards (IFRS). This financial information is un-audited and, therefore, is subject to potential future modifications.
Benchmark set of results in 2007

Setting the basis to sustain our leadership and superior performance
Telefonica España has maintained a strong momentum, both in Q4 and FY07

**Strong commercial push**
- Leading the growth in the mobile market
- Lowest fixed telephony lines loss since 2001
- Increasing market share in BB and Pay TV businesses

**Outstanding top line growth and profitability**
- Robust top-line growth driven by customer base expansion and ARPU
- Increasing operational efficiency: underlying OIBDA growth above top line growth
- Strong cash generation while transforming our network

46.4 MM accesses (+5.0%)

Sound Q4 07 performance
In the wireline business, we have strengthened our competitive position ...

The Spanish market continues to grow

- Although the Spanish economy is slowing down, it is expected to continue outgrowing the EU
- Population will keep growing
- Telecom expenditure in our market only represents 3% of the total family expenses
- The Telecom sector performance is more dependent on the evolution of households than on new houses:
  - number of households continues to grow
  - <40% of new fixed lines in 2007 were linked to new buildings

Family Budget Survey (INE 2006)

- Housing, electricity, water, gas... 26%
- Food & beverages 14%
- Transports 14%
- Hotels, restaurants, coffees 10%
- Leisure time, Culture, shows 7%
- Clothes & shoes 7%
- Furniture 6%
- Communications 3%
- Other 13%
