Building on core strengths in a growing industry

Goldman Sachs Communacopia XIX Conference
New York, September 21-22, 2010

Telefónica, S.A.
Disclaimer

This document contains statements that constitute forward looking statements about the Company including financial projections and estimates and their underlying assumptions, statements regarding plans, objectives and expectations which refer to the intent, belief or current prospects of the customer base, estimates regarding, among others, future growth in the different business lines and the global business, market share, financial results and other aspects of the activity and situation relating to the Company.

The forward-looking statements in this document can be identified, in some instances, by the use of words such as "expects", "anticipates", "intends", "believes", and similar language or the negative thereof or by forward-looking nature of discussions of strategy, plans or intentions.

Such forward-looking statements, by their nature, are not guarantees of future performance and involve risks and uncertainties, and other important factors that could cause actual developments or results to differ from those expressed in our forward looking statements. These risks and uncertainties include those discussed or identified in fuller disclosure documents filed by Telefónica with the relevant Securities Markets Regulators, and in particular, with the Spanish Market Regulator.

Analysts and investors, and any other person or entity that may need to take decisions, or prepare or release opinions about the securities issued by the Company, are cautioned not to place undue reliance on those forward looking statements, which speak only as of the date of this presentation. Except as required by applicable law, Telefónica undertakes no obligation to release publicly the results of any revisions to these forward looking statements which may be made to reflect events and circumstances after the date of this presentation, including, without limitation, changes in Telefónica’s business or acquisition strategy or to reflect the occurrence of unanticipated events.

Neither this presentation nor any of the information contained herein constitutes an offer of purchase, sale or exchange, nor a request for an offer of purchase, sale or exchange of securities, or any advice or recommendation with respect to such securities.

Finally, this document may contain summarized information or information that has not been audited. In this sense, this information is subject to, and must be read in conjunction with, all other publicly available information, including if it is necessary, any fuller disclosure document published by Telefónica.
Telecoms, a sector with significant growth opportunities ahead

Massive penetration of accesses & BB\(^{(1)}\)

- **Billions**
  - Households: Today 1.0, 2020 1.2
  - People: Today 4.6, 2020 6
  - Machines: Today 1.4, 2020 40

- **M/F (M+F)**
  - Today: 75%, 2020: 90%

- **MBB/BB**
  - Today: 37%, 2020: 95%

Traffic explosion

- **5G calls of connected devices**

Increasing share in consumer’s wallet

- **Communication Expenditure /Total Consumer expenditure\(^{(2)}\)**

  - 1990: 1.6%
  - 2000: 2.6%
  - 2010: 3.5%
  - 2015E: 4.2%
  - 2020E: ?

---

Telefónica is best placed to take full advantage of this growth

We have the scale ...
- 278 m accesses (Jun-10)
- #5 worldwide
- Strategic Alliance (CU) & Industrial Partnership (TI)

the right assets ...
- Controlled operations in 22 countries; #1 or #2 in most
- Integrated player
- 70% of sales outside Spain
- Ability to set “the speed of change”

... the vision to do so

A differentiated growth profile

Telefónica organic revenue (y-o-y growth)

H1 09 9M 09 FY 09 Q1 10 H1 10

(1) Rebased figures, assuming 100% of Vivo from Jan-10. Includes all the revenues from Group companies except Telefónica España.

(2) For US companies OIBDA calculated as OI+D&A. Source: Companies’ press releases & DB estimates.

(3) Organic growth revenues assumes constant exchange rates as of H1 09 (average fx) and excludes the consolidation of HanseNet (since mid February) and Jajah (January-June) in 2010. Telco Morocco results are excluded in January-June 2009. It excludes hyperinflationary accounting in Venezuela in both years.
We will capture revenue growth potential in our markets.

**REVENUE CAGR 08-12E (1)**

- **MBB (2)**: +40% / +45%
- **Applications & new business (3)**: +12% / +15%
- **FBB (2)**: +5% / +8%
- **Traditional (4)**: -2% / +1%

**REVENUE MIX (1)**

**FY 2008**
- Applications & new business: 81%
- BB connectivity: 13%
- Traditional: 4%
- Accesses & Voice: 2%

**FY 2012E**
- Applications & new business: 72%
- BB connectivity: 21%
- Traditional: 6%
- Accesses & Voice: 1%

---

(1) Figures for guidance assume 2008 constant FX (average FX08) and exclude changes in consolidation.
(2) BB connectivity (MBB & FBB). FBB connectivity: (DSL, FO, cable modem ...), fixed data services, retail and whole sale equipment. MBB connectivity: big and small screen, mobile email, and WAP browsing revenue.
(3) Apps. & New business revenue: TV, ICT solutions, on line advertising (e-Commerce, Terra), MBB VAS (mobile content/ application downloaded), other FBB VAS, new growth sources and other digital content service revenue.
(4) Access & Voice: fixed and mobile access & voice (SMS included), fixed and mobile equipment, narrowband internet and M2M revenue.
(5) Revenues from subsidiaries and other companies.
We will further exploit growth levers

Enhancing the quality of a growing customer base
Clear trend towards Smartphones & 3P/4Ps across markets

**Mobile business**

- Prepay: ≈X
- Contract: ≈4.5x
- Smartphone\(^{(1)}\): ≈6.5x

<table>

---

(1) In terms of customer mix, it refers to total MBB lines (smartphones + Big Screen).
(2) ARPU figures for T. España.
(3) Bundles: (1P+2P+3P+4P) over total fixed accesses ex Public Use Telephony.
We are already taking the right steps to profitably monetize Mobile Internet and MBB opportunity

**Offer**
- Positioning complementary to FBB
- Growth focused on small screen
- Improved customer experience
- From unlimited flat tariffs to tiered pricing

**Infrastructures**
- **Data capacity optimisation**
  - Increase number of sites
  - Increase frequency carriers/site
- **Reduce cost/Mbyte**
  - Use low frequency spectrum
  - Gradual migration to LTE & FO
- **Traffic management**
  - Promote WiFi usage
  - Selective Femtocell deployment

**Mobile data, our key growth driver**

**H1 10 Organic (1) revenue**
(y-o-y growth)

- Germany: +35%
- UK: +43%
- Spain: +64%
- Latam: +78%

**UK**
3% of users >500Mb or 65% of traffic

Spain
Only 3% of MBB connections cannibalise FBB

Data usage per user

(1) In Germany, excludes the consolidation of HanseNet in January-June 2010, in UK and Spain, reported in local currency and in Latam assumes constant exchange rates and excludes hyperinflation accounting in both years.
We are well positioned to outperform in the “European Age of austerity”

**Revenue Mix. H1 10 (1)**

- **T. España:**
  - Mid single digit of total revenue, below average OIBDA margin
  - Multiyear contracts

- **T. Europe:**
  - Low single digit of total revenues
  - Relatively low exposure in the UK & Germany
  - Higher exposure in the Czech Republic

**Limited exposure to the Public Sector in Europe**

- **T. España:**
  - Further diversification post stake increase in Vivo (Brazil)
  - Latin America, our key growth engine

**Increased exposure to Emerging Markets**

**Potential additional tax pressure?**

- New public TV tax in Spain already implemented for 2010
- VAT increase in Spain (Jul-10) and the UK (Jan-11E). Lower sensitivity in the contract segment (66% in Spain; 47% in the UK)
- Not major changes in European corporate taxes expected

**Private consumption CAGR 09-12E (2)**

- TEF footprint: +2.3%
- Europe: +1.0%
- Spain: +0.6%

---

(1) Rebased figures, assuming 100% of Vivo from Jan-10.
(2) Source: Consensus forecasts, European Commission, IMF and internal estimates. Telefónica footprint figure calculated as the weighted average of Private Consumption in each country according to its contribution to Group’s revenues.
Best placed to take full advantage of the growth potential in Brazil

• **Building the leading integrated telco in Brazil:**
  - Expanding nationwide leadership in wireless, specially in contract & data. Leading the MBB deployment in the country
  - Maintaining strong commercial momentum in FBB, on the back on enhanced quality & churn reduction

• **The most profitable player, with room for further efficiency gains:**
  - Significant operating & regional synergies from Telesp/Vivo combination

• **Fast growing market, ahead of expectations:**
  - 96% wireless penetration in Jun-10 (+13 p.p. y-o-y)
  - Current estimates for Dec-12 exceed 120% vs. 105% expected in Oct-09
  - 26% FBB penetration/Telesp’s fixed accesses in Sao Paulo in Jun-10 (+3 p.p. y-o-y), exceeding 40% by Dec-12E

---

**Estimated year for the Brazilian economy to reach ...**

(1) Aggregated figures for revenue and OIBDA.
We are committed to a disciplined use of FCF

**Predictable M&A strategy**
(Investor Conference; Oct. 2009)
- Spectrum auctions in current markets to foster growth
- In-market consolidation
- Increase shareholding in China Unicom to 10%

**Oct. 2009-YTD**
- ✔️ New spectrum in Germany & Mexico
- ✔️ Hansenet (Germany), Vivo (Brazil)
- ❌ Pending

**Shareholder oriented mindset**

**Growing DPS**

<table>
