

PRINCIPLES OF PERSONAL DATA PROCESSING

Any processing of personal data must respect the key principles of data protection.

LAWFULNESS, FAIRNESS, AND TRANSPARENCY

The processing must be covered by any lawfulness of processing. In addition, the processing must be fair and informed.

STORAGE LIMITATION

The data must be kept for no longer than is necessary for the purposes of processing the personal data

PURPOSE LIMITATION

The purpose of the processing of personal data must be clearly defined and the data must not be used for a different purpose

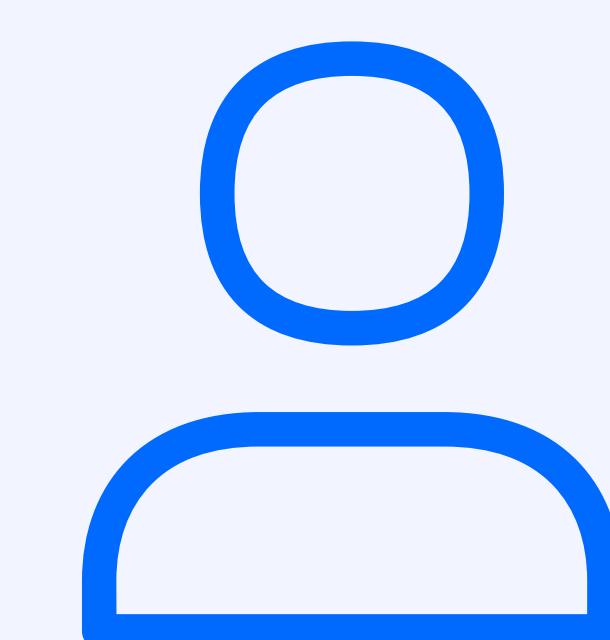

INTEGRITY AND CONFIDENTIALITY

Protecting personal data against any risk that threatens its security (Integrity, availability and confidentiality)

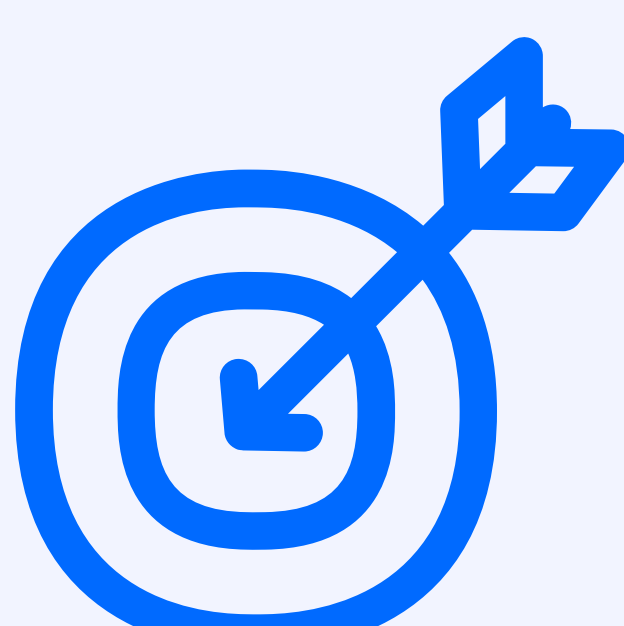

DATA MINIMISATION

Personal data shall be adequate, relevant and limited to what is necessary in relation to the purposes

ACCOUNTABILITY

Data controllers and processors must comply with these principles and be able to demonstrate such compliance

ACCURACY

Personal data shall be accurate and, if necessary, updated
