Disclaimer

This document contains statements that constitute forward looking statements in its general meaning and within the meaning of the Private Securities Litigation Reform Act of 1995. These statements appear in a number of places in this document and include statements regarding the intent, belief or current expectations of the customer base, estimates regarding future growth in the different business lines and the global business, market share, financial results and other aspects of the activity and situation relating to the Company. The forward-looking statements in this document can be identified, in some instances, by the use of words such as "expects", "anticipates", "intends", "believes", and similar language or the negative thereof or by forward-looking nature of discussions of strategy, plans or intentions.

Such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and other important factors that could cause actual developments or results to differ materially from those expressed in our forward looking statements.

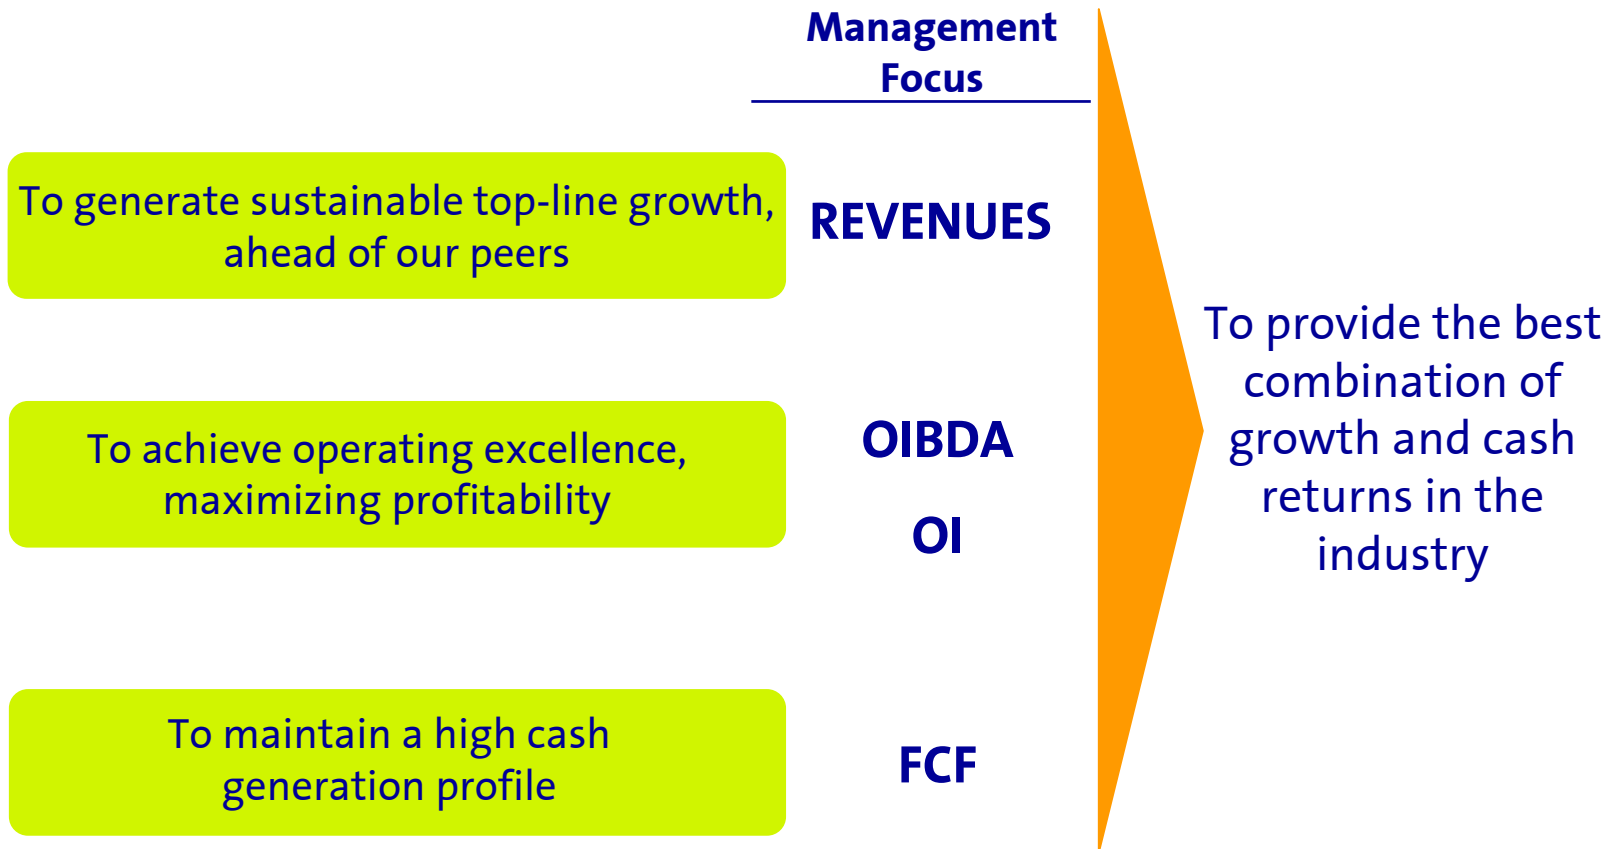

Analysts and investors are cautioned not to place undue reliance on those forward looking statements which speak only as of the date of this presentation. Telefónica undertakes no obligation to release publicly the results of any revisions to these forward looking statements which may be made to reflect events and circumstances after the date of this presentation, including, without limitation, changes in Telefónica's business or acquisition strategy or to reflect the occurrence of unanticipated events. Analysts and investors are encouraged to consult the Company's Annual Report as well as periodic filings filed with the relevant Securities Markets Regulators, and in particular with the Spanish Market Regulator.

The financial information contained in this document has been prepared under International Financial Reporting Standards (IFRS). This financial information is unaudited and, therefore, is subject to potential future modifications. 2004 financial results were originally prepared under Spanish GAAP and have been translated into IFRS for comparison purposes only.

Conclusions

- Our management of operations, centred on top-line growth, efficiency, and cash generation is proving to be successful across the P&L, with Net Income increasing by 40%
- We have kept organic growth at unparalleled levels, backed by the strong performance in subscribers and ARPUs for all divisions
- We have met our 2005 financial commitments by far, after being one of the few incumbents raising guidance last year
- We have retain healthy margins and operating cash flow generation, even in a context of renewed commercial efforts and higher CapEx to lead the development of growth opportunities in our markets
- We are successfully turning around Cesky Telecom, a proof of our capacity to generate tangible benefits from integrating acquisitions fast

In a nutshell, we are proving to be the best combination of growth and cash returns in the industry
